

Reminder DE-MYTH-A-FLYING: I Really 'Thought' I Knew That!

Ron will provide answers for a number of questions you might not have recently thought about. Discover: preconceived ideas about flight and techniques that we might take for granted or may not experience often. This advanced material seminar will highlight scenarios that ask you to inspect your current perspective on topics such as: Stall / Spin Awareness Over the Counter Drugs Fully Understand the Use of Flight Controls Examining the Real Best Glide Speed for the Emergency Circumstance How to avoid Loss of Control And more. Designed to identify and cast away any Myths we might have and replace them with Real Data. This presentation has something for every pilot level!

Directions: Main meeting room at the General Aviation Center

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
